

Datalogic for CBE Zero Waste Store project - Datalogic

Find the perfect end-to-end solution for your Zero Waste store, partnering with trusted global technology partners.

How working with technology partners helped this environmentally friendly store redesign their point of sale

When Pax, one of Ireland's largest Zero Waste shops were looking to offer their customers a pleasant shopping experience with effective and efficient technology that also allowed the online orders to be fulfilled, they worked closely with the best global technology partners to find the perfect end-to-end solution.

Discover our [Magellan 1500i](#) compact presentation scanner: the speed and efficiency of our scanners provide the perfect solution for retail environments designed with the environment in mind - with low carbon footprint, low power consumption, recyclable materials and labels.

Build a more sustainable future with no compromise on quality and efficiency, the way is already here.
