

## WIN AN IPAD 2 IN DATALOGIC MOBILE'S WALLPAPER CONTEST

Bologna, June 15, 2011 - Datalogic Mobile, a leader in the mobile computing industry, is launching an international contest to select the most creative wallpaper for use on PDAs or smartphones. The contest, running from June 15 to October 31, 2011, gives participants a chance to win the latest iPad 2.

Datalogic Mobile continues demonstrating its close connection with the web community by offering it a fun and interactive experience in the form of a contest. Anyone from all over the world can participate. Participants must simply go to Datalogic Mobile's website [www.winipad2datalogicmobile.com](http://www.winipad2datalogicmobile.com) and use the elements provided to create a personalized wallpaper for the PDA, Elf™, provided as a sample framework. Entries will be judged on design originality and creativity.

The winner of the contest will receive an iPad 2 (WiFi+3G, 16GB). This new version of the iPad is thinner and lighter making it even easier to hold. It offers a dual-core A5 chip with 10 hours of battery life, various connectivity possibilities and a large, backlit screen. The new iPad 2 also incorporates 2 cameras to be able to make FaceTime video calls, record HD video and much more.

More information and complete instructions and rules for Datalogic Mobile's wallpaper contest can be viewed at: [www.winipad2datalogicmobile.com](http://www.winipad2datalogicmobile.com).
