

## DATALOGIC AUTOMATION SOLUTIONS AT IPACKIMA IN 2012!

We look forward to seeing you at the next edition of IPACKIMA, that will be held at MilanoFiere from February 28th to March 3rd, to show the innovations of our wide range of products that meet all requirements in the Packaging World.

In particular, Datalogic Automation offers the widest range of fixed bar code readers, photoelectric sensors, safety light curtains and sensors for 2D inspection.

Datalogic Automation will show its **new S8 Series** photoelectric sensors, stainless steel version for clear objects detection, and the innovative **SG EXTENDED** safety light curtains, the best solution for all Packaging application.

Moreover, on Thursday March 1st, Datalogic Automation will held a workshop entitled "Intelligent Sensors" at the Innovation Corner, Hall 9, stand C96 at 3PM.
