

SPS/IPC/DRIVES 2010

Datalogic Automation will be present at SPS/IPC/DRIVES 2010, the Europe's leading exhibition for electric automation, (Hall 7A - Booth 508) which will be held in Nürnberg - Germany - from 23rd to 25th of November 2010.

In its booth, Datalogic Automation will present its complete range of fixed Bar Code Readers, Photoelectric Sensors, Safety Light Curtains, 2D Imagers, Vision Sensors, Lasermarkers and RFID. The product demos will offer an overview of the Datalogic Automation products, which is one of the most complete available today in the industrial automation world.
