

## NEED A MRA? EASY AS 1, 2, 3!

Datalogic Automation produces the highest quality equipment designed to give you years of dependable operation.

With a good Repair Service performed by highly trained technical personnel using specialized test fixtures and test equipment, you will preserve the value of your investment, control costs and increase uptime of your machine or plant.

With EASEOFCARE the access to the Repair Service is as easy as 1, 2, 3:

- Register to the EASEOFCARE Service on <http://www.automation.datalogic.com/service/material-return-authorization/>
- Select your product and country
- Get the MRA (Material Return Authorization) and the shipping instructions to the appropriate Datalogic Automation Repair Center.

With EASEOFCARE you can monitor the status of your repair from your office, when travelling or at home.

EASEOFCARE, on duty since two years for Identification Products, is now available also for:

- Sensors
- Safety & Measurement
- Vision

EASEOFCARE is currently active on European Countries...try it !
