

# DATALOGIC AUTOMATION BENELUX MOVES TO CULEMBORG

Nieuwegein, August 2010 - Datalogic Automation Benelux, supplier of stationary barcode scanners, camera systems, RFID products and sensors, moves to Culemborg on the 8th of September. From that moment on you can find us and reach us on the below printed address and phone number.

The success of our business and the corresponding growth of the Benelux organization allow us to move to a new office. "Our business more and more is project oriented. Service plays an important role in the successful handling of these projects. The new office offers to us the right facilities to even enlarge our service offer and be the right partner for our customers" says Marc Almekinders, Country Manager.
