Consolidated sales revenues of € 284.3 million (mn), down by 4.4% vs. € 297.5 mn in the same period in the previous year. **With constant exchange rates Euro/Usd, compared to 2007, the growth would have been approx. 1%.**

Unfortunately, reliable reclassification of 3Q07, on the basis of the new Divisions of the Group, was not possible.

At 30th September 2008, the net financial position of Datalogic was negative by € 73.9 mn, an increase both in comparison to its position at 31st December 2007 (negative by € 62.5 mn) and at 30th September 2007 (negative by € 67 million).

We would however point out that, in the first nine months of the year, treasury shares were bought for approximately € 19 mn. If treasury shares were included (also counting n. 5,409,981 treasury shares cancelled in May 2008), the net financial position at 30th September 2008 would be negative by € 26.7 mn. In addition dividends were paid for € 4 mn.

Lastly, please note that the Quarterly Report at 30 September 2008 is unaudited.

In addition, the Company informs that today the acquisition by Datalogic Automation S.r.l. of **Datasensor S.p.A.**, Italian company leader in the design, production and marketing of photoelectric sensors and devices for the industrial automation sector, has been completed and payment of the second instalment and balance, for € 13.7 mn, has been made.

The payment of the first instalment, for € 31.3 mn, was made on 3rd October upon signature of the contract.

In this regard, we would like to recall that the deal is worth a total amount of € 45 million (Equity Value), appropriate price determined with the corroboration of an independent expert appraisal - KPMG Advisory S.p.A (required as the deal is between related parties).

As regards the valuation of the acquisition price, we would like to point out that the Datalogic S.p.A. Board of Directors unanimously approved said price, with the abstention of the Directors that have interests in potential conflict with those of the Company.

The acquisition will be mainly financed via use of bank borrowing (up to a maximum of € 40 million) and available financial resources.
