Bologna, 10th May 2011 – The Board of Directors of Datalogic S.p.A. (Borsa Italiana S.p.A.: DAL), a company listed in the Star segment of Italy's stock exchange (MTA) organised and managed by Borsa Italiana SpA ("Datalogic") and market leader in barcode readers, data collection mobile computers, RFID and vision systems, today approved the interim financial statements for the quarter ending on 31st March 2011.

The first quarter of 2011 closed with a consolidated net profit of 5.7 million Euros, up by 37% vs. 4.1 million recorded in the first quarter of 2010.

Mauro Sacchetto, CEO of Datalogic, commented: *"FY2011 opened with strong growth results compared to the previous year and the last quarter both in terms of turnover and profitability, validating the excellent performance of 2010.*

The first quarter showed a positive trend in all divisions confirming a higher growth compared to reference markets. Work on the costs structure, started in previous years, has allowed further efficiency gains thereby ensuring the achievement of a margin closer to our target for the end of the Business Plan period 2010-2012.

Even though the macroeconomic recovery remains uncertain, we look to the future with confidence and thanks to market leadership and continued product innovation, we are confident of strengthening the growth process already begun."

Sales revenue reached 105 million Euros, representing a 17.2% growth compared to the first quarter of 2010 and a 3% rise compared to the fourth quarter of 2010, thanks to commercial strategy and continuous product innovation. At constant Euro/Dollar exchange rates, the increase versus the previous year would have been slightly lower at 16.7%.

EBITDA rose to 14.9 million Euros, with a strong growth of 40.7% compared to 10.6 million Euros in the first quarter of 2010 and to 10.9 million Euros reported in the fourth quarter of 2010, confirming the continuous progression of results and a relevant growth of profitability (EBITDA margin at 14.2% compared with 11.8% in the first quarter of 2010). This positive trend has been reached thanks to the reduction of operating costs, equal to 37.6 million Euros (up 13.6% in the first quarter of 2010 and down by 3% in comparison to last quarter). Research and Development costs totalled 6.8 million Euros, equivalent to 6.5% of revenue.

Even more relevant was the growth in EBITANR^[1] which amounted to 12.2 million Euros (7.7 million in the first quarter of 2010 and 7.9 million in the last quarter of 2010).

After financial charges substantially stable at 1.5 million Euros, compared to 1.4 million in the first quarter of 2010 and foreign exchange losses at 1.5 million compared to a foreign exchange profit of 0.9 million Euros in the first quarter of 2010, net profit grew to 5.7 million, compared with 4.1 million

in the first quarter of previous year.

Net financial debt at 31st March 2011 was 71.2 million Euros, a significant improvement compared to 76.5 million recorded at 31st December 2010.

Net working capital amounted to 32.7 million Euros at 31st March 2011, increasing by 5.5 million versus 27.2 million at 31st December 2010.
