DATALOGIC & STAYLINKED: PIONEERS OF FUTURE WITH READY MOBILE SOLUTIONS

Datalogic Strengthens Partnership with StayLinked to Empower its Mobile Terminal Portfolio with Pre-Licensed SmartTE on Skorpio X5 GUN.

Bologna, Italy – September 24, 2025 – Datalogic, a global leader in automatic data capture and industrial automation markets, is pleased to announce the expansion of its strategic partnership with StayLinked, a recognized technology leader in modern terminal emulation solutions. This enhanced collaboration reflects Datalogic's continued commitment to delivering integrated, high-performance solutions that elevate the user experience and accelerate customer success.

From now on, all Skorpio™ X5 gun-grip models will ship with StayLinked SmartTE pre-licensed and ready to use – at no additional cost. This integration provides customers with immediate access to a modern, secure, and high-performance terminal emulation environment, enhancing the Skorpio X5's reputation for ruggedness, reliability, and mission-critical performance.

SmartTE by StayLinked enables advanced terminal emulation with powerful capabilities, including:

- Session persistence to eliminate dropped connections
- Seamless Wi-Fi roaming for uninterrupted productivity
- Touch-optimized Interface for intuitive user experiences
- Enterprise-grade security without the need to modify backend systems

This new agreement supports Datalogic's strategy to offer future-ready mobile computing solutions that simplify deployment, enhance workflow efficiency, and reduce total cost of ownership.

"Our partnership with StayLinked reflects a shared commitment to reliability and security," said Rosario Casillo, Executive VP Product and Solutions at Datalogic. "By combining Datalogic's most reliable and secure Skorpio X5 hardware with StayLinked, SmartTE customers gain a seamless and more productive experience, free from the disruption of dropped sessions. And now, with every Skorpio X5 gun grip model purchase, users receive a free perpetual SmartTE license and one year of maintenance support, making this powerful integration available right out of the box, at no additional cost".

In addition to the Skorpio X5 GUN, SmartTE will continue to be supported across other key Datalogic mobile terminals, including the Skorpio X5 No-GUN, Memor 30X, Memor 35X, and Memor K – delivering consistency and scalability across a wide range of devices.

This strengthened partnership confirms Datalogic's unwavering focus on customer-centric innovation and reinforces its mission to support digital transformation across industries.

Datalogic + StayLinked – Fast. Flexible. Future-Proof.
