COMPANY OVERVIEW

>Solutions for
Industrial Automation

DATALOGIC

Datalogic Group

Datalogic is a global leader in Automatic Data Capture and Industrial Automation markets. As a world-class producer of bar code readers, mobile computers, sensors, vision systems and laser marking systems, Datalogic offers innovative solutions for a full range of applications in the retail, transportation & logistics, manufacturing and healthcare industries.

With products used in over a third of world's supermarkets and points of sale, airports, shipping and postal services, Datalogic is in a unique position to deliver solutions that can make life easier and more efficient for people.

As a total solutions provider, Datalogic's dedication is to exceed customer expectations that result in the widest range of high-performance products and solutions in the industry.

Companies around the world trust Datalogic to provide reliable solutions that drive real benefits to their bottom line. And it doesn't end there. So whatever industry you're in, you can rely on Datalogic to help you make automation seamless.

- Founded in Bologna in 1972
- Listed in the STAR Segment of the Italian Stock Exchange since 2001
- About 2,400 employees
- Direct presence in 30 countries worldwide selling to 120 + countries
- 12 R&D centers
- +1,000 partners worldwide
- A large growing portfolio of over 1,000 patents

Datalogic Industrial Automation

Datalogic Industrial Automation is an industry-leader in products and solutions for material handling, traceability, inspection and detection applications.
With the acquisitions of Accu-Sort and PPT Vision in 2012, the company offers a comprehensive portfolio of products, technologies and solutions delivered by a team of skilled professionals dedicated to providing superior service to customers.
Datalogic is the partner of choice for organizations in the Industrial Automation market.

Factory Automation

Product portfolio

Datalogic Industrial Automation has the most comprehensive offering of products and solutions for traceability, inspection and detection applications in factory automation and logistics processes: industrial laser scanners, cameras and vision systems, sensors, machine safety devices and laser markers.

IDENTIFICATION

Identification

Even the most demanding and efficient automation of identification processes can leverage Datalogic Industrial Automation's leadership in the market. We manufacture the world's most comprehensive family of fixed-mount line and omnidirectional scanners. We also offer the latest CCD vision technology with the world's largest installed base of CCD systems for bar code reading and dimensioning. All of our AUTO-ID products and solutions leverage the broadest decoding library that has been developed through the years. Datalogic's comprehensive AUTO-ID portfolio is used in a wide range of applications and machines which are behind many of the everyday processes that keeps the global economy running.

- Industrial bar code scanners
- Image based readers and imagers
- Connectivity

Dimensioning

Datalogic Industrial Automation offers laser-based trade-certified dimensioning systems for fast and accurate item and package dimensioning guaranteeing outstanding performance with cuboidal, near-cuboidal, or irregular package flows. Non-singulated parcels can also be accurately dimensioned and detected for proper handling in automated sortation systems.

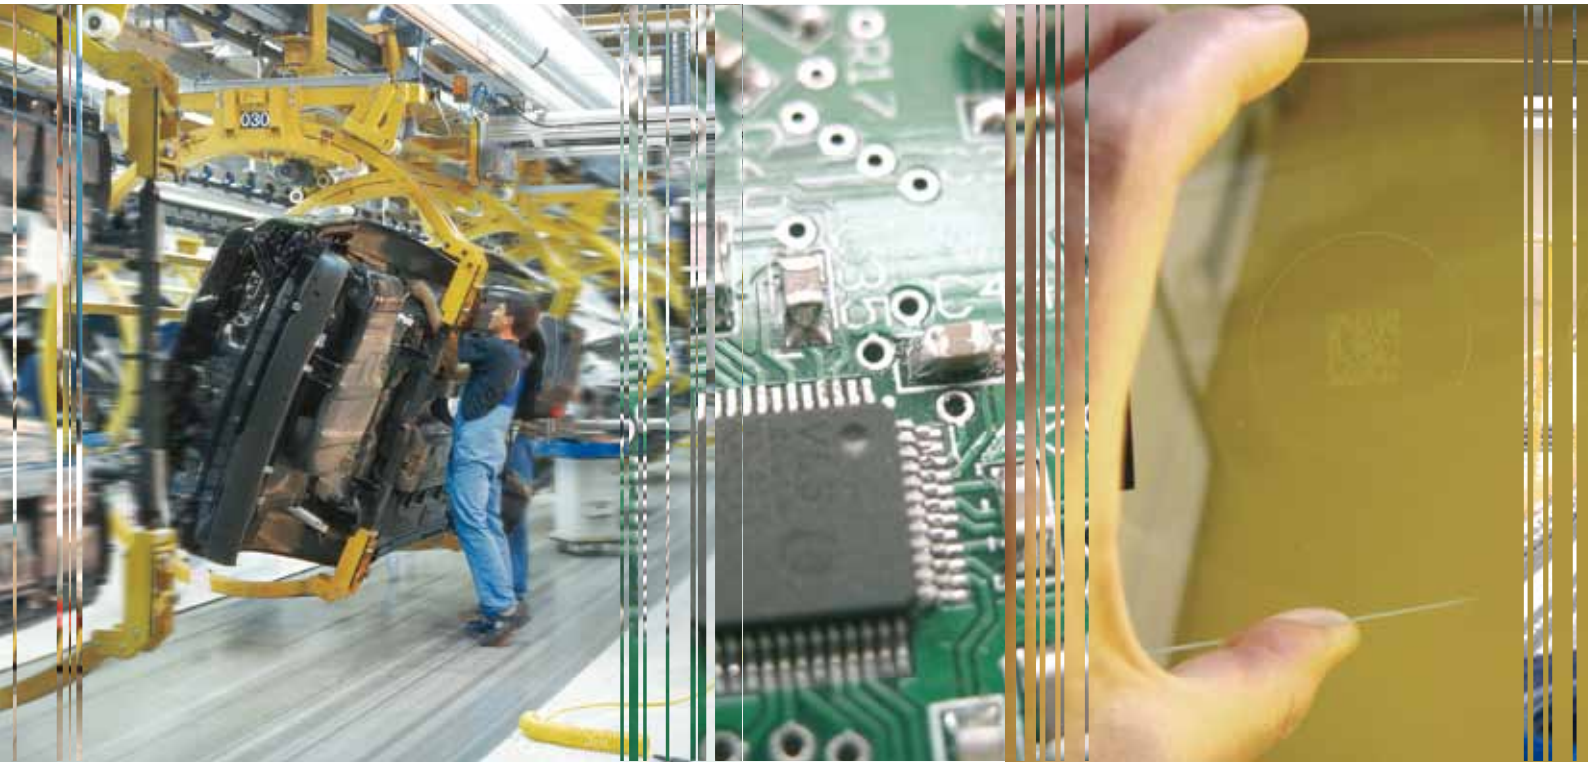

SENSORS&SAFETY

Sensors & Safety

Datalogic Industrial Automation offers a best-in-class, comprehensive product portfolio of photoelectric and proximity sensors, temperature controllers and measurement devices, as well as type 2 and type 4 safety light curtains. These product lines provide solutions for applications involving color, contrast and luminescence, label detection, dimensional and distance measurement, in addition to machine safeguarding and access control in dangerous areas.

- PHOTOELECTRIC & PROXIMITY SENSORS
- MEASUREMENTS DEVICES
- SAFETY LIGHT CURTAINS FOR HAND, FINGER, BODY DETECTION AND PRESENCE CONTROL

MACHINE VISION

Machine Vision

The Datalogic Industrial Automation machine vision product line encompasses both hardware and software while covering a wide range of performance and price point requirements. The vision portfolio of products and solutions ranges from simple vision sensors to smart cameras and embedded vision systems. Impact Software powers the full line of integrated vision solutions, from simple to complex. The investment in software and training is preserved as inspections grow. One software – countless applications!

- Vision sensors
- Smart cameras
- Vision processors
- One-for-all vision software

LASER MARKING

Laser Marking

Laser Marking sources and systems provide value driven marking solutions for automotive, metal tools, medical, electronics and packaging. Datalogic Industrial Automation offers an extensive range of state-of-the-art technology, excellent performance and high reliability marking equipment.
