GROUP OVERVIEW
Datalogic at a Glance

Global technology leader in the **data capture** and **industrial automation**, in the **Retail**, **Manufacturing**, **Transportation & Logistics**, and **Healthcare** industries.

Founded in **1972**, listed on the Italian Stock Exchange since **2001**.

- **Retail**
- **Manufacturing**
- **Transportation & Logistics**
- **Healthcare**

A portfolio of about 1,200 patents and patent applications

450+ Engineers in 8 R&D centers and 3 DL Labs in Italy, USA, Vietnam, and China

10% Revenues invested in R&D

3,000+ Employees in 29 countries:
- 16.3% Americas
- 58.8% EMEAI
- 24.9% APAC

11 Manufacturing & Repair sites in:
- USA, Hungary, Slovakia, Italy, China, Vietnam, and Australia

Figures refer to YE 2022
Datalogic, a leading group

- Worldwide leadership in barcode reading for Manufacturing, T&L and Retail applications
- Well-established brand with solid global customer base including Fortune 500 Companies
- Dedicated focus on Smart Sensors and Safety for Automated Manufacturing

- Focus on core identification/barcode reading technology while investing in the new frontier of Artificial Intelligence, Machine Vision and Deep Learning
- Sound investments to enhance Product offer with easy-to-integrate solutions

- M&A in key segments to expand market share and boost technology
- Solid profitability and cash generation

Datalogic Group footprint – Offices and Facilities

- 11 Manufacturing & Repair sites
- 8 R&D Centers, 3 DL Labs
- 48 Offices and Facilities in 29 countries

Percent on H1 2023 Revenues - Data refer to H1 2023
STRATEGY
Our Aim, our Dream, our Beliefs

“Shape the future with intelligence and innovation.”

“We enable our customers to gain a competitive edge by offering the most advanced Data Capture and Industrial Automation products and solutions.”

The 6 values of our culture

Ownership
We think and act as owners of Datalogic

Efficiency
We treat Company expenses as we would our own

Focus on results
We deliver what we promise

Realism
We face reality and fix what is wrong

No shortcuts
We don’t compromise on strategy, culture, or achieving results

Togetherness
We work together as one team to solve seemingly unsolvable problems
Our Strategy

❖ Enhance **hardware** offer with **software**, driving efficiency in Client-facing, Supply Chain and Manufacturing applications in **Retail, T&L, Healthcare** and **Factory Automation** verticals

❖ **Consolidate position in EMEAI** and become a **strong player in the United States**

❖ **Grow our** presence in **China**

❖ **Push towards innovative Solutions**, where traditional AUTO-ID capabilities are offered bundled with additional Deep Learning / Vision software, analytics and other services

❖ **M&A focus in Technology** to boost both portfolio and capabilities and **Customer base** to boost penetration
Main innovation trends in Retail - Increasingly self check-out and contactless

Datalogic Proposition

- **Market Leader** along the Retail supply chain from 1974 with the **first scanner** ever sold to a grocery store in Troy, Ohio
- Excellence in **productivity and customer experience for self-checkout** and attended lanes for both Grocery and Non-Food with FRS and HHS product portfolio
- Perfect partner to automate operations and exploit Retail analytics, thanks to **AI/machine learning-driven applications** and automation
- Innovative solutions to integrate in-store with warehouse operations

Main Applications

**In-store check-out POS**
- Self Check-out
- Self-Shopping
- In-Counter with scale options
- On-Counter, Presentation, Hands-free
- Large items identification
- Loss prevention

**In-store Operations**
- Inventory management
- Shelf Replenishment
- Order Management
- Assisted Sales
- Queue busting

**E-commerce, Distribution Center & Fulfillment Center**
- BOPIS/BORIS
- Last mile order fulfillment
- Hands-free operations
- Shipping/receiving
Main innovation trends in Manufacturing - Process digitization

Datalogic Proposition

- Multi-product portfolio to serve all the major manufacturing clients: Automotive, Food and Beverage, Automated Machinery and Electronics, Packaging and Intralogistics
- Leader in traceability thanks to the most complete and performing offer of stationary industrial scanners
- Unique portfolio provider of smart, interconnected devices able to unlock new frontiers of action-oriented insights based on advanced analytics (e.g. predictive maintenance)

Main Applications

**Automotive**
- Powertrain assembly
- Interiors (texturing) assembly
- Suspensions & braking system assembly
- Exteriors assembly
- WIP traceability
- Direct Part Marking (marking and reading)
- Supplier components tracking

**Electronics**
- Board assembling and testing
- Device assembling and testing
- Personalization and branding
- Device packaging and warehousing
- Labeling and DPM verification and tracking
- Wafer marking

**Packaging**
- Primary packaging tracking
- Cartoning traceability
- Bundling/Tray packing/Shrink wrapping traceability
- Case packing traceability
- End-of-Line/Palletizing/Wrapping/Robotics traceability
- Printed label verification

**Intralogistics**
- Label reading and verification
- Parts/boxes identification/traceability
- Palletizing
- Warehouse management
- Sorting and shipping
Main innovation trends in Transportation & Logistics – E-commerce is market driver

**Datalogic Proposition**

- We enhance operations to **Courier-Express-Parcels, Airports and Logistics**
- At the **forefront** of the development of **airport systems**, since 1984 with the **first automatic reading** station in Milan, to the recent contracts on 3 of the 5 main airports worldwide (source: SkyTrax rating)
- Historically leader in stationary industrial scanners, providing **top performing solutions** for High-Speed sorting to all the main CEPs and 3PLs
- Increased level of efficiency and full tracking capabilities along different supply chain phases for **enhanced decision-making**

**Main Applications**

**Airport**
- Baggage handling systems
- Baggage reconciliation
- Out-of-gauge
- Check-in and bag drop-off handling

**Courier & Parcels**
- Sorting
- Field mobility
- Outbound
- Parcel detection on belt
- Inbound & Induction

**Postal**
- Field mobility
- Small parcel sortation
- Parcel transport and sortation systems
- Point-of-Sales
- Inbound & Induction

**3PLs**
- Receiving
- Put away
- Order fulfillment
- Storage
- Shipping

**E-commerce**
- Picking
- Reverse logistics
- Manual & Automated sorting
- On-field operations
- Hands-free solutions
Main innovation trends in Healthcare – Digital dominates and sustainability grows

Datalogic Proposition

▪ We empower the entire Healthcare ecosystem from drug production to patient care
▪ Datalogic is the sole company providing unique product features for the HC industry such as: Anti-microbial enclosures, Inductive charging technology for battery recharge, and Green spot good match to ensure positive medicine-patient identification

Main Applications

Hospitals
• Admittance
• Patient bed care
• Analysis labs
• Surgery tools verification
• Inventory management

Pharmacies
• Point-of-sale
• In-store operation
• Inventory management
• Receiving

Pharmaceutical
• Drugs production
• Pharma products distribution
• Warehousing
OPERATING MODEL
Unique Player with two major products platforms to better address different application needs across verticals
New Datalogic operating model

- Industry knowledge, **focus on end-users** and our main 4 **Verticals** keep on being **the core of our strategy**

- **Two main operating market segments implemented** to properly and effectively execute strategy due to evolution of the market and of customer’s needs, and effectively address:
  - a higher **focus on Product Groups**
  - different **go to market models, buying criteria priorities and client’s point of contacts by Market segments**
  - **specialized expertise** of the sales force **by Application**, across different industries
  - **A dedicated Business Unit** focused on pushing towards both cross-products and market specific **Solutions**
FINANCIALS
1H 2023 Highlights: improving profitability and cash flows in an uncertain demand environment

- **Revenues** decreased by 5.3%, due to a soft demand and the continuing destocking cycle in distribution, in all geographical areas.

- **Gross Operating Margin**, improving on a quarterly basis, at 42.4% compared to 39.6% in H1 2022 (+2.8 pp) thanks to positive effects of price, mix and productivity in an eased environment on the procurement side.

- **Positive price/mix in the semester** across main geographies and product lines.

- **R&D Cash Out** at €32.0M, steady at around 10.7% on revenues, maintaining solid levels of R&D investments.

- **Adj EBITDA margin** at 11.1% (10.9% in H1 2022), thanks to the improvement in industrial margins and despite higher operating expenses and negative volumes.

- **Net Debt** down at €25.1M, thanks to a sound +€31.8M operating cash flow generation, fueled by tight control on Net Working Capital.
Group Revenues by Geography

<table>

<td>2.8%</td>
<td></td>
</tr>
</tbody>
</table>

- **Gross Margin at 42.4%:** +2.8 pp YoY. Improvement in H1 compared to previous year thanks to **positive pricing/mix and productivity** offsetting negative volumes.

- **Operating expenses at €109.5m,** mainly due to continuous investments in R&D and S&D.

- **Adj EBITDA margin** at 11.1% (+0.2 pp YoY), thanks to improving industrial margins, despite higher operating expenses.

- **Net Result** at **€12.1m** vs €8.8m in H1 2022, up vs Y-1 thanks to financial items, mainly.

*Restatement mainly due to reclassification of some installation costs from S&D to COGS*
EBITDA Adj: actual vs last year
